What it is about

What makes this conference different and successful is our strong and distinctive focus on educational content. Our vision is to provide for a truly international forum that addresses the challenges and seeks to answer the questions Bank Guarantee and Letters of Credit practitioners face in their daily business environment.

Every year we arrange for a unique collection of different topics including, the industries' latest trends and developments as well as sessions that are designed to analyse the legal and practical issues in LCs and guarantees, explain their uses, highlight the areas of potential risk, show how to circumvent looming problems and teach effective drafting and documentation techniques.

For this to be delivered, ICC Austria can rely on the most distinguished expert speakers with not only long, successful careers in this global industry but also active involvement in the continuous work of the ICC Banking Commission.

Do not miss the chance to take part in in-depth training sessions, discussion of the current challenges and the invaluable opportunity to meet with your peers from around the globe.
