online-training, meetingplatform zoom

Our Expert

Manuela Hermetter, qualifying PEOPLE e.U.

With 23 years of practical experience, Manuela Hermetter is an sea freight expert and recognized management consultant for foreign trade. During her career, she was head of the international overseas department at DB Schenker in Klagenfurt and was responsible for the Sales & Marketing Division. As a graduate of the university programme for export and international business, she regularly shares her extensive knowledge in lectures on foreign trade, customs and logistics topics. A clear focus on efficiency and innovation paired with practical examples, humour and passion make Manuela Hermetter an outstanding speaker.

Background

Immerse yourself in the world of container logistics: discover the fascinating development of modern container shipping, which has grown from its beginnings in the 1960s with 200 TEU ships to impressive giants with capacities of over 24,000 containers.

Successful overseas business starts here: Conducting overseas business requires a deep understanding of the risks involved in container transport. Our expert will show you how to understand and control these risks and thus minimise the cost of errors. This not only secures your supply chain, but also leads to satisfied overseas customers.

Why our seminar?

Practical knowledge: Our seminar offers practical knowledge about overseas transport in containers. Gain specific information on the mode of transport, insights into individual markets, and understand liability issues and the functions of the Bill of Lading.

Apply maritime Incoterms® 2020 correctly: Learn how to correctly apply the sea freight Incoterms® 2020, avoid pitfalls when purchasing sea freight services and create a clear freight cost calculation.

Safety for your goods on the high seas: Learn how to protect your products from hazards on the high seas. From the right packaging to the right transport insurance - we show you the best measures.

Efficient cooperation through more knowledge: Find out how shipping companies and your sea freight forwarder think and the processes behind container logistic. The greater the knowledge, the better the cooperation.

Who is it for
