What is it about

This beginner level online-training offers a straightforward introduction to demand guarantees and their role in international trade. We explore the key types of guarantees, including bid guarantees, performance guarantees, advance payment guarantees, warranty guarantees, payment guarantees and customs guarantees, and walk through the responsibilities of applicants, beneficiaries and banks. Participants will learn how to spot common drafting problems and understand why wording matters. The webinar also highlights how URDG 758 can provide structure and reduce uncertainty in daily practice. It is ideal for anyone new to guarantees or looking to refresh their foundations.
