Every year we arrange for a unique collection of different topics including, the industries' latest trends and developments as well as sessions that are designed to analyse the legal and practical issues in LCs and guarantees, explain their uses, highlight the areas of potential risk, show how to circumvent looming problems and teach effective drafting and documentation techniques.

For this to be delivered, ICC Austria can rely on the most distinguished expert speakers with not only long, successful careers in this global industry but also active involvement in the continuous work of the ICC Banking Commission.
