Background

This unique 2 days technical Master Class workshop on unusual cases in international Trade Finance is organised by EBRD together with ICC Austria. World class experts are ready to discuss and give solutions to

- unusual and difficult cases
- as well as answer your individual problems and specific situations (please submit – in anonymized form – your cases – we will treat all details submitted with strict confidence as to its origins)

Your challenges, questions, hick-ups or unusual cases occurring in your daily business around Letter of Credits, Stand-bys, Bank Guarantees, Performance Bonds, Forfaiting or any other instrument will be answered by practitioners and lawyers. This international workshop will adapt to your special needs !

The *European Bank for Reconstruction and Development* (EBRD) with its mandate to facilitate trade through its Trade Facilitation Programme (TFP) and provide access to trainings and education and *ICC Austria* – a successful rule maker, conference provider and consultant - decided to establish an annual platform that offers you the unique possibility to debate your personal cases with your colleagues as well as experts from around the globe with the aim of finding legally correct, but more importantly practical solutions to your problems.

How it works

We developed a simple **four step programme** for your practical needs:

1. Submit your case

- Upon registration you will receive a template ppt slide that you can use to submit your cases anonymously (if required) until **25th of October** to e.treu@icc-austria.org. They will then be forwarded to all participants and experts prior to the event in order to review them (as preparation).

2. Discuss your problem within a working group

- Next to the template you will receive during registration, you will be asked to fill out a **participants' profile** which enables us to set up suitable working groups. A working group will consist of 5-8 participants (depending on the overall number of registrations). Together, you will work through your first pack of cases, discuss them and draft a possible solution.

3. See how other groups as well as experts would solve the problem in the plenary session

- The solution found by the different groups will then be presented in the plenary session which is moderate by the experts.

4. Take the solution to your case back home
