## Background

### Practice makes the master!

Understanding the UCP, ISBP, ISP98 and URDG is a necessity to become proficient in Trade Finance instruments, such as L/Cs or Demand Guarantees. To master those however, it takes experience. Experience gained through a number of transactions managed and challenges addressed and overcome.

At ICC Austria we very much value practice and therefore, together with EBRD, established a forum for real-life cases five years ago. Unfortunately, the current pandemic prevents us from hosting a face-to-face meeting this year, so we came up with an alternative, so you do not have to go without your ICC Austria Trade Finance infusion.

Join us for a technical webinar on recent cases and selected Banking Commission Opinions. Over the course of four days we will focus on different subjects, such as compliance, discrepancies, documents that need to be presented and Demand Guarantees we will debate how to best address real-life challenges and respective ICC Banking Commission Opinions associated with the topic.
