- Managers of Joint Ventures
- Sales Managers
- Procurement specialists
- Specialists in commodity trade
- Controllers

Background & Objectives

Understanding what is new with the Incoterms® 2020 is essential. However, knowledge about the changes alone will not suffice:

Choosing the right combination of Incoterm® and L/C conditions is essential to obtain financial security. Isolated consideration of Incoterms® or L/C conditions may be contra-productive and a tremendous cost trap. Learn how to select and combine the contract terms and Incoterms®, L/C conditions, transport and insurance from international renowned experts.

Banks – although they only deal with documents and not with goods, services or contracts - need to understand the underlying transaction to be able to assess their risk of potential losses or to eliminate the possibilities of financial crime or breach of law or violation of sanctions.

Confidence that “the client will always get it right” should not result in blind reliance: understanding Incoterms® and contractual obligations will not only allow banks to check the delivery terms for responsibilities on carriage and insurance and the passing of risk, but will also base your communication on an equal footing, so to find the best trade finance solution for your client.

Corporates need to be aware of the potential opportunities, but also risks from the first start of negotiations up to the acceptance and payment of goods. They should take into consideration the choice of the appropriate Incoterm® as basis of cost-conscious contracts, payment securities, transport conditions and insurances amongst other things. Learn to avoid misunderstandings and costly disputes arising out of sale contracts that are not adequately drafted or their content is not fully reflected in the Insurance Certificate.

This ICC Austria conference seek to integrate trade & insurance issues with contract conditions and Incoterms® – highlight potential contractual and cost traps - and show practical solutions. We aim to combine knowledge of international experts from banks, corporates and law firms in order to avoid partial solutions, but to offer an **integrated approach** instead.
